

First Class Quality Assurance

Excellence Through Quality

Our commitment to quality

A commitment to the highest standards of quality assurance underlines everything we do. In an ever more challenging and competitive world where customers expectations are becoming increasingly demanding, Flexi-Cell (UK) Ltd meets these demands by utilising acknowledged best practice Quality Assurance tools, techniques and principles.

Flexi-Cell (UK) Ltd operates a Quality Management System which is third party accredited to ISO 9001:2008 by the BSI (Certificate No. FM 551887).

"Quality does not happen by accident...it has to be planned"

Joseph M Juran.

Pixargus precision measuring technology is used during the manufacturing process

As a supplier to the automotive sector, many of the controls and disciplines used within this industry have been applied to the other aspects of the Flexi-Cell business including:

- FMEA • Control Plans • APQP • SPC

Flexi-Cell (UK) Ltd is a division of the Berwin Group, a leading custom compounder with ISO 9001 and ISO 14001 accreditations and brings together over 50 years of experience in rubber technology, providing customers with the benefit of stability, resources and financial strength whilst retaining the flexibility of a dedicated specialist division.

Flexi-Cell utilises these considerable resources for testing and validation of materials, together with finished product testing, thus ensuring customers can have complete confidence in the products they receive.

What we make, makes a difference

We offer a wide and varied range of rubber based products and services to meet the diverse requirements of today's demanding and challenging industrial sectors across the globe. Our scope of manufacturing includes Closed Cell Sponge Rubber Blocks, Solid Rubber Extruded Sealing Sections and Tubing.
